CAREER OBJECTIVE

To build a successful career in software development by designing and delivering efficient, scalable, and user-friendly applications. I possess a solid foundation in Java, MySQL, HTML, and CSS, and I am eager to expand my expertise in modern front-end and back-end technologies, cloud platforms, and software architecture. I am committed to continuous learning, adopting best practices, and contributing to high-quality, innovative, and cost-effective software solutions delivered within fast-paced development cycles.

EDUCATIONAL QUALIFICATIONS

2021-2024: Technical University Of Mombasa

Diploma in Computer Science

2016-2020: Hamis High School

Kenya Certificate of Secondary Education (c plain)

2008-2016: Ganjoni Primary School

Kenya Certificate of Primary Education (B+)

WORK EXPERIENCE

2023 September - Attachee

2024 - 2025 - Junior software developer(internship)

Zurion Technologies

SKILLS

- **Proficient in Java, HTML, CSS, JavaScript, JSP, and Servlets.**
- **Experienced in MySQL for database design, queries, and optimization.**
- **Familiar with Bootstrap for responsive UI development.**
- **Strong problem-solving and debugging skills, with the ability to troubleshoot and optimize code efficiently.**
- **Quick learner, adaptable to new programming languages, frameworks, and technologies.**
- **Understanding of software development principles, including OOP, MVC architecture, and RESTful APIs.**
- **Ability to work with version control systems like Git for collaboration and project management.**
- **Strong analytical and logical thinking skills, with an eye for detail in software development.**
- **Capable of working in both frontend and backend development, ensuring smooth integration.**
- **Excellent teamwork and communication skills, able to collaborate effectively with developers, designers, and stakeholders.**
- **Good understanding and experience with JasperReports for generating dynamic reports in Java applications.**

PROJECTS

1. Personal Portfolio Website

- **Built using HTML, Bootstrap, and JavaScript.**

- Showcases my skills, projects, and professional experience.
- Designed with a responsive layout for seamless viewing on different devices.

2. Gas Management System (Java, MySQL, JSP/Servlets)

- Developed a web application to manage multiple shops, stock, sales, and invoicing.
- Implemented user roles and authentication for employees and managers.
- Integrated reporting and PDF export functionalities for sales and inventory.
- Designed a responsive interface for efficient shop management.

3. Online Banking System (Java, MySQL, JSP/Servlets)

- Built a full-featured online banking system with account creation, login, dashboard, and transactions.
- Implemented secure password hashing, session management, and transaction handling.
- Developed transfer functionalities, including intra-bank and inter-bank transactions.
- Created a responsive dashboard displaying account details and transaction history

4. Resume Builder (HTML, CSS, JavaScript)

- Created a single-page application to build, preview, and download resumes.
- Developed with vanilla JavaScript for dynamic content and PDF download.
- Focused on user-friendly interface and simple workflow.
